The Danish Institute at Athens is pleased to invite you to
a lecture in English by

Prof. Marie Louise Nosch
&
Dr Joanne E. Cutler

University of Copenhagen - Centre for Textile Research

”Textile Production in the Late Bronze Age Aegean”

Wednesday 9 April, 7 p.m.
at the Danish Institute

Although archaeological textiles from the Bronze Age are not well preserved in Greece, a new method of textile tool analysis can shed light on ancient textile production. This gives us new possibilities to interpret the Linear B inscriptions from the Mycenaean palaces. In this lecture, Prof. Nosch and Dr Cutler will demonstrate how epigraphy, tool studies and experimental archaeology can work together.
